

## it.x-scale - Scale Adapter

### Connection of electronic scales to the SAP ERP system

#### Introduction

The use of electronic scales in production or shipping department challenges many companies to link these scales to the leading SAP ERP system. With it.x-scale scales or weighing terminals from many manufacturers can easily and effectively connect to SAP systems.

#### Your Benefit

Connection of electronic scales from the following manufacturers to the SAP ERP system:

- Bizerba
- Bruss
- Core
- Mettler Toledo
- Pfister
- RHEWA
- Schenck
- Schmitt/ Systemc
- Soehnle

Two possible paths of integration: with the SAP NW PI or with the it.x-press Connect Module

Connecting multiple scales of different manufacturers parallel possible

Scales with a serial or Ethernet port can be connected.

#### Specification

- the adapter is certified by SAP.
- connectivity across different locations (VPN, NAT, etc) possible
- can be used flexible with it.x-pack, SAP Standard packing table or by direct function call (RFC)

- possible Integration with SAP NW PI / PO adapter or on the basis of it.x-press Connect modul
- Communicates directly with TCP / IP-enabled scales
- Communicates with RS232-enabled scales via converter (Perle IOLAN)
- Supports multiple weighbridges per terminal

## **Scope**

Delivery of it.x-scale including a corresponding documentation. The adapter requires a maintenance contract, which includes Help Desk Support and product updates.

## **Price**

€4,900.00
