

SAP Lumira

LUM10 - Lumira Training

Introduction

This one-day training course is designed to give you an understanding of how to use Lumira - the self-service data visualization tool. Participants will learn how to create effective dashboards / data visualisations, without the help of their IT department. These can then be shared throughout the organisation to be consumed by more casual users in tools like Business Explorer.

Content

Duration: 1 day

- Exploration through Agile Visualisation
- Prepare, Enrich, Explore, Share
- Dataset Acquisition
- Data Transformation
- Visualisation types
- Building Visualisations
- Story Boards
- Publishing

Goals

Participants will learn how to create effective data visualizations and build engaging stories, to create infographics that can be shared throughout the Organisation.

Prerequisites

None for this offering.
